Additional Information / Prior Funding History:

None.

Project Description/Justification:

This project is needed due to the general pavement condition at the airport, and the age of the lighting system. The Pavement Condition Index (PCI) shows the pavement being below standards (it is between 55 and 69 on the PCI scale and should be 70 or above), the lighting is old and in need of replacement.

This project contributes to the Department's Mission by reducing injuries, fatalities and property damage and by improving the mobility of people and goods.
