**Project Description/Justification:**

This project will purchase new and replacement law enforcement equipment for the Division of Alaska State Troopers.

Annual funding is needed to provide the primary law enforcement organization in the state with basic law enforcement equipment necessary for state troopers to provide service to the public. Equipment replacement is due to normal wear and tear.

This project will provide funding for the below types of equipment; however, other types of equipment may be purchased if deemed more mission critical.

**New and replacement electronic and office equipment: \$300,000**

This category of equipment includes printers, scanners, digital recorders, digital cameras, digital video, computer software, and office equipment for use in crime scene and other documentation and evidence gathering. This category also includes the replacement of antiquated and irreparable office furniture such as desks and chairs.

**Law enforcement equipment: \$200,000**

This includes radar units for vehicle speed enforcement, total station (instruments used for accident and crime scene documentation and mapping), all-terrain vehicles (ATV's), snow machines, and specialized emergency response team (SERT) equipment.
