\$900,000 - Ch 43 SLA 2010 Pg 47 Ln 4.

Project Description/Justification:

Title II of the Americans with Disabilities Act (ADA) requires that state and local governments must assure that programs and services are accessible to persons with disabilities. A majority of the sidewalks within the City of Fairbanks are not ADA compliant and this project will provide the necessary upgrades.

FMATS upgraded 99 curb corners in FFY11 and plans to upgrade additional deficient curb corners under this project. The curb corners to be upgraded are not ADA compliant and prevent people from being able to safely walk to work, transit stops, medical appointments, shopping, etc.

This project contributes to the Department's Mission by reducing injuries, fatalities and property damage and by improving the mobility of people and goods.
