Additional Information / Prior Funding History:
 FY11 - \$3,000,000.

Project Description/Justification:
 The project will improve the highway to accommodate increased traffic volumes and provide a safe highway with an acceptable 20-year Level of Service. The new facility will have partial control of access. Partial control provides median breaks at important intersections, but minimize driveway access. In addition, a frontage road is proposed for the west side of the highway between Cienna Avenue and South Colony Way.

This project contributes to the Department's Mission by reducing injuries, fatalities and property damage and by improving the mobility of people and goods.
