Additional Information / Prior Funding History:

None.

Project Description/Justification:

Currently there is a grader with attachments and a 1-bay unheated SREB located at the Koliganek Airport. It's floor is unstable and needs to be repaired. Maintenance and Operations (M&O) has identified the need for a new loader with attachments, however a heated SREB will be required in order to store the loader.

Maintenance and Operating costs will increase by approximately \$16,000 per year, beginning in 2015.

This project contributes to the Department's Mission by reducing injuries, fatalities and property damage and by improving the mobility of people and goods.
