Additional Information / Prior Funding History:
 None.

Project Description/Justification:
 To maintain the integrity of this roadway, the structural section must be rehabilitated and significant pavement deficiencies must be addressed. Some curve angles will need to be adjusted to improve safety. This is the singular roadway to the lower Kenai Peninsula for all freight and passenger traffic. There is no alternate route so the existing pavement problems and safety issues should be improved as soon as possible.

This project contributes to the Department's Mission by reducing injuries, fatalities and property damage and by improving the mobility of people and goods.
