Additional Information / Prior Funding History:

None.

Project Description/Justification:

The existing timber structure at Little Goldstream Creek is experiencing abutment undermining and settling due to erosion, and an overall loss of retaining structure integrity. This off-system bridge serves as the only access to local farms and residences in the Nenana community. It is considered priority #50 on the statewide bridge deficiency list.

This project contributes to the Department's Mission by reducing injuries, fatalities and property damage and by improving the mobility of people and goods.
