Additional Information / Prior Funding History:

None.

Project Description/Justification:

The existing Ruby Creek bridge is structurally deficient and rehabilitation is not economically feasible. Raising the grade of the bridge will also address current flooding/sediment deposition problems and reduce annual maintenance costs. This bridge is ranked #47 on the statewide 2011 bridge deficiency list.

This project contributes to the Department's Mission by reducing injuries, fatalities and property damage and by improving the mobility of people and goods.
