Project Development:	0	0
Ongoing Operating:	0	0
One-Time Startup:	0	
Totals:	0	0

Additional Information / Prior Funding History:

None.

Project Description/Justification:

This survey is a follow-up to one administered in 2002. Since then the region has experienced some significant changes that might impact travel behaviors. The data will be used by AMATS (Anchorage Metropolitan Area Transportation Solutions) to validate and recalibrate the transportation demand forecasting model and to identify transportation needs in the region. Among the data collected will be socioeconomic and travel behavior information of area households.

This project contributes to the Department's Mission by reducing injuries, fatalities and property damage and by improving the mobility of people and goods.
