**Project Description**

**Principal's Priority**                    3

West High is requesting grant funding for an additional 20 interactive display devices, 20 student response systems "clickers", classroom furniture, and 3 mobile computer labs. These devices may include SMART boards, Promethean boards, interactive projectors, or other interactive display technology, computers, and furniture as allowed for on the ASD approved technology list. 5% of the total award will be dedicated to training and professional development associated with effectively integrating this equipment into the classroom environment.

**Benefits if Project is Funded**

Allow staff the opportunity to use technology in the classroom. West Anchorage High School is overcrowded and has few computer labs. Smart boards, clickers and projectors will allow our staff a method to deliver instruction in a new and cutting edge manner. Currently many of our staff are limited in the delivery of instruction because of technology.
