Anchorage - Fire Department Dispatch Center Improvements

State Funding Requested: \$250,000**House District: Anchorage Areawide (16-32)**

One-Time Need

Brief Project Description:

The fire department intends to replace the desktop computer consoles, workstation furniture, and the servers.

Funding Plan:

Total Project Cost: \$250,000

Funding Already Secured: (\$0)

FY2013 State Funding Request: (\$250,000)

Project Deficit: \$0

Funding Details:

none

Detailed Project Description and Justification:

The AFD dispatch center provides 911 & radio communications services to the fire department. There are currently five workstations in the center that are approximately 12 years old. The fire department intends to replace the desktop computer consoles, workstation furniture, and the servers that support the Computer Aided Dispatch system. The department will also add a sixth dispatch workstation. The new workstations will enhance ergonomics and also provide the ability to control environmental factors such as noise reduction, improved task lighting and more heating/cooling control for the user.

Project Timeline:

It is the fire department's intention to purchase and install equipment at the end of FY2012.

Entity Responsible for the Ongoing Operation and Maintenance of this Project:

Anchorage Fire Department
