Detailed Project Description and Justification:

The City has established a Mayor's Task Force to develop a master plan for the future development of our entire medical campus. This area currently includes the hospital, the medical clinic, the Senior Citizens Center, and the area once occupied by the Harborview medical facility (now demolished). This master plan is looking at many competing needs and coordinates/prioritizes them in an implementable strategy.

As part of this evaluation, it was determined that the current carport used by the Senior Center had reached its useful life, that it poses some life safety concerns, and that it needs to be replaced. This master planning effort further revealed that to maximize the land use around the hospital to allow for future expansion, the Senior Center Carport also needed to be relocated to an area just south of the current Senior Center building. Design of this project is underway. Funding this request would make construction in early 2013 a possibility.
