Intent

It is the intent of the legislature that the Department continues to aggressively pursue Medicaid cost containment initiatives. Efforts should continue where the Department believes additional cost containment is possible including further efforts to contain travel expenses. The Department must continue efforts imposing regulations controlling and materially reducing the cost of Personal Care Attendant (PCA) services. Efforts must be continued utilizing existing resources to impose regulations screening applicants for Residential Psychiatric Treatment Center (RPTC) services, especially for out-of-state services. The department must address the entire matrix of optional Medicaid services, reimbursement rates and eligibility requirements that are the basis of the Medicaid growth algorithm. This work is to utilize the results of the Medicaid Assessment and Planning analysis. The legislature requests that by January 2010 the Department be prepared to present projections of future Medicaid funding requirements under our existing statute and regulations and be prepared to present and evaluate the consequences of viable policy alternatives that could be implemented to lower growth rates and reducing projections of future costs.

Signature of the grantee would also certify that if a final report certifying completion of the grant requirements is not filed, future grants will not be considered for that grantee until all requirements of prior grants are completed satisfactorily. In the event a grantee is deemed ineligible for a future grant consideration due to improper filing of final reports, the grantee will be informed about the department's procedures for future consideration of grant eligibility. The department will establish procedures to consider retroactivity for specific grant consideration or express that the retroactivity cannot be considered for certain grants during the selection process.

The extrapolation methodology will also define percentage of 'safe harbor' overpayment rates for which extrapolation methodology will be applied.
2. Develop training standards and definitions regarding ministerial and billing errors versus overpayments. Include the use of those standards and definitions in the State's audit contracts.
