| <p><u>Intent</u><br/>It is the intent of the legislature that the Department continues to aggressively pursue Medicaid cost containment initiatives. Efforts should continue where the Department believes additional cost containment is possible including further efforts to contain travel expenses. The Department must continue efforts imposing regulations controlling and materially reducing the cost of Personal Care Attendant (PCA) services. Efforts must be continued utilizing existing resources to impose regulations screening applicants for Residential Psychiatric Treatment Center (RPTC) services, especially for out-of-state services. The department must address the entire matrix of optional Medicaid services, reimbursement rates and eligibility requirements that are the basis of the Medicaid growth algorithm. This work is to utilize the results of the Medicaid Assessment and Planning analysis. The legislature requests that by January 2011 the Department be prepared to present projections of future Medicaid funding requirements under our existing statute and regulations and be prepared to present and evaluate the consequences of viable policy alternatives that could be implemented to lower growth rates and reducing projections of future costs.</p> |                | X            |
| <p><u>Intent</u><br/>It is the intent of the legislature that the Department of Health and Social Services eliminate the requirement for narrative and financial quarterly reports for all grant recipients whose grants are \$50,000 or less. This is an unnecessary burden and is not a requirement of the federal grants.</p>  |                | X            |
| <p><u>Intent</u><br/>It is the intent of the legislature that the Department of Health and Social Services make a single 'upfront' payment for any grant award that is \$50,000 or less and includes a signature of the grantee certifying compliance with the terms of the grant with their approved application. Signature of the grantee would also certify that if a final report certifying completion of the grant requirements is not filed, future grants will not be considered for that grantee until all requirements of prior grants are completed satisfactorily. In the event a grantee is deemed ineligible for a future grant consideration due to improper filing of final reports, the grantee will be informed about the department's procedures for future consideration of grant eligibility. The department will establish procedures to consider retroactivity for specific grant consideration or express that the retroactivity cannot be considered for certain grants during the selection process.</p>  |                | X            |
| <p><u>Intent</u><br/>It is the intent of the legislature that the Department of Health and Social Services continue the Medicaid Reform work to improve efficiency and slow the need for General Funds in the Medicaid program. Specifically, but not exclusively, the Department is to:<br/>1) Complete the evaluation of possible changes to program design, determine waiver changes necessary to secure federal funding and report back to the First Session of the 27th Alaska Legislature on suggested changes, expected outcomes related to Medicaid sustainability, and</p>   |                | X            |

Intent

It is the intent of the legislature that the Department of Health and Social Services complete the following tasks related to fiscal audits required in chapter 66, SLA 2003 of all Medicaid providers:

X

1. Develop regulations addressing the use of extrapolation methodology following an audit of Medicaid providers that clearly defines the difference between actual overpayment of funds to a provider and ministerial omission or clerical billing error that does not result in overpayment to the provider. The extrapolation methodology will also define percentage of 'safe harbor' overpayment rates for which extrapolation methodology will be applied.

2. Develop training standards and definitions regarding ministerial and billing errors versus overpayments. Include the use of those standards and definitions in the State's audit contracts. All audits initiated after the effective date of this intent and resulting in findings of overpayment will be calculated under the Department's new regulations governing overpayment standards and extrapolation methodology.

Intent

It is the intent of the legislature that the department develops a ten year funding source and use of funds projection for the entire department.

X

Intent

It is the intent of the legislature that the department continue working on implementing a provider rate rebasing process and specific funding recommendations for both Medicaid and non-Medicaid providers to be completed and available to the legislature no later than December 15, 2010.

X

**Ap: Medicaid Services**

Intent

It is the intent of the legislature that the Department of Health and Social Services identify and investigate alternatives that could improve internal administrative management and accounting controls over the Medicaid program, including determining the viability of outsourcing those activities. The Department should be prepared to present its findings to the legislature during the 2011 session.

X

AI: Adult Preventative Dental Medicaid Services

Intent

It is the intent of the legislature that the Adult Preventative Dental Medicaid Services not over spend authority granted by authorizing statute and adjust benefits available to individual participants as necessary to maintain and conduct the program throughout the entire fiscal year.
