Intent

It is the intent of the legislature that the Department of Environmental Conservation provide recommendations to the legislature on or before the start of the second session of the Twenty-eighth Alaska State Legislature, January 21, 2014, that identify ways to finance and manage the oil and hazardous substance release prevention and response fund as a viable, long-term funding source for the state's core spill prevention and response initiatives. The plan should include an analysis of prior expenditures from the fund for the remediation of state-owned contaminated sites, a proposal to expeditiously remediate state-owned contaminated sites, and a report on the Department's effort to achieve program efficiencies to restrain a draw on the oil and hazardous substance release prevention and response fund.
