<b>L H SAP 18</b> - Reinsurance program Offered by Representative Seaton See 30-GH1855U5, Wallace, 3-2-17	Lang	0.0	0.0	0.0	0.0	0.0	0.0	0.0	0.0	0	0	0

This amends sec. 10(g) and (h) in HB 57, version U.  
The Department of Commerce, Community, and Economic Development, Division of Insurance, has applied for a federal waiver of Section 1332 of the Patient Protection and Affordable Care Act. If this waiver is approved, federal funding may become available in an amount equal to the federal savings from lowered insurance premium subsidies for eligible Alaskans. Approval of the waiver is expected before June 30, 2017. Funding from the Alaska Comprehensive Health Insurance fund would continue to be required to reinsure Alaskans who were not eligible for federal subsidies.

The change to subsections (g) and (h) extends the time period of this Reinsurance Program appropriation from the calendar year 2018 program to the calendar years 2018 through 2022 programs to match the term of the waiver.

New subsection (i) adds expenditure authorization for federal receipts that may become available in fiscal year 2018 with the approved waiver for the calendar year 2018 Reinsurance Program. The federal waiver will be for a five-year period; however, future receipts cannot be obligated in the state budget so additional federal receipt authorization will be requested in future years for the annual receipt collections.

New subsection 31(c) makes these appropriations contingent upon federal approval of the Section 1332 waiver. This contingent language is required for eligibility for the federal waiver because it makes Alaska's program budget-neutral for the federal government.

The state has not fixed its current budget deficit any more sustainably than it did last year, and last year's appropriation was \$30 million. It is intended that when the state adopts a sustainable fiscal plan and meets our constitutional obligation to get the public maximum benefit from their oil resources, funds will be available to pay these accrued credit subsidies in greater amounts. In FY18 it is projected that paid oil and gas production taxes will be less than oil and gas credits generated by FY18 activity under current law. This leaves the state with negative production tax revenue for FY18.
