## Notes:

- January 23, 2014
- (1) Although Permanent Fund earnings may be appropriated for any purpose, the legislature traditionally excludes them from the definition of available revenue. Appropriations of Permanent Fund earnings are reported in lines 54-58 of the summary. Permanent Fund earnings and balance information is reported in part 2 of the Fiscal Summary.
- (2) The Department of Revenue's Fall 2013 oil forecast for FY14 is 0.508 mbd at \$105.68 per barrel; the FY15 forecast is 0.498 mbd at \$105.06 per barrel.
- (3) Carryforward is money that was appropriated in a prior year that is made available for spending in a later year via multiyear appropriations. Total carryforward into FY15 will be unknown until the close of FY14.
- (4) Designated general funds include 1) program receipts that are restricted to the program that generates the receipts and 2) revenue that is statutorily designated for a specific purpose.
- (5) Duplicated authorization is in the budget twice, such as when funds flow in and out of a holding account or one agency pays another for services provided. Duplicated authorization also includes the expenditure of bond proceeds when debt service on bonds (which includes repayment of principal) will be reflected in future operating budgets.
- (6) Including duplicated fund sources in the amount of capital spending provides a valuable measure of "money on the street" because it includes projects funded with bond proceeds and other duplicated fund sources.
- (7) "Transfers" refer to appropriations that move money from one fund to another within the Treasury. Although transfers are not true expenditures, they reduce the amount of money available for other purposes so must be included in the calculation of the surplus/deficit. For reserve accounts, a positive number indicates a deposit and a negative number indicates a withdrawal. When money is withdrawn and spent, the expenditure is included in the operating or capital budget, as appropriate.
- (8) The post-transfer withdrawal necessary to balance the budget is anticipated to be \$1.9 billion in FY14 and \$1.1 billion in FY15.
- (9) Amounts shown on line 58 can be considered duplicated appropriations—they are included in the operating or capital budgets above. The Designated General Fund column include amounts associated with the dividend program. Amounts in the Other column reflect gross earnings of the Permanent Fund spent for purposes other than operation of the corporation.
